SUMMARY

Third-year Computer Science undergraduate student at Toronto Metropolitan University, pursuing a minor in Biology, with experience in Python, machine learning, computer vision, bioinformatics, 3D modeling, and full-stack development. Proven ability to build data-driven applications using tools such as scikit-learn, Flask, and SQL. Seeking a software engineering internship.

EDUCATION

Toronto Metropolitan University
BSc Computer Science (Minor in Biology)

Toronto, ON
Sep 2023 – Present

University of Toronto
Mechanical Engineering (First Year)

Toronto, ON
2021

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, , C/C++, Bash

Frameworks & Libraries: React, Node.js, NoSQL, Flask, scikit-learn, pandas, NumPy, OpenCV

Tools & Technologies: Git, Docker, Kubernetes, MySQL, REST APIs, CI/CD, Fusion 360, Adobe Illustrator

Cloud & Deployment: Docker, Kubernetes, AWS (EC2, S3), Google Cloud Platforms

Domains: Machine Learning, Computer Vision, Bioinformatics, 3D Modeling

PROJECTS

SignMap Data Visualization Platform (Demo)

2025

Full-Stack Data Application

React, Node.js, Firebase, Google Maps API

- Mapping platform to visualize and cluster geospatial CSV data
- Integrated Firebase for data storage and ingestion
- Implemented clustering and interactive visualization with Google Maps API
- Developed CRUD APIs and Google OAuth authentication

PizzaDay Web Application (Demo)

2025

Full-Stack Web Application

React, Node.js, Express, MongoDB, Stripe

- Full-stack pizza ordering app with customer UI and order management
- React frontend with animations and 3D components
- Implemented backend APIs, authentication, and order processing
- Integrated Stripe payments and automated email notifications

Real-Time Gesture-Based Screen Interaction System

2025

Computer Vision + Embedded Systems

Python, OpenCV, MediaPipe, ESP32

- Real-time system for image detection and gesture interaction using ESP32
- Implemented CV pipeline (Canny, Hough, Harris) for robust localization
- Enabled gesture control (swipe, pinch) using MediaPipe
- Calibrated camera and processed data to improve pose estimation accuracy

Oracle-Web Database Interface
Full-Stack Web Application

2026
React, Node.js, Oracle SQL

- Web interface for Oracle database interaction with full CRUD support
- Developed React frontend for table views and SQL query execution
- Implemented Node.js backend for API and database operations

EXPERIENCE

Hostess
Mott32

June 2024 – Present
Toronto, ON

- Managed high-volume reservations and customer flow
- Coordinated team communication in fast-paced environment
- Applied problem-solving and multitasking under pressure

Assistant Manager
Nutbar Superfood Cafe

Feb 2023 – Nov 2023
Toronto, ON

- Managed operations including inventory, scheduling, and customer service
- Trained staff and improved workflow efficiency
- Led team coordination and operational problem-solving

Cafe Supervisor
Giovane Cafe

Sep 2022 – May 2023
Toronto, ON

- Supervised staff and ensured efficient daily operations
- Managed inventory and customer service processes

CERTIFICATIONS

- Food Handler Certification (2023)
- Smart Serve Ontario (2022)
